

Our Medical Staff. . .

We provide a comprehensive staff of a physician, PA, medical assistant, and clinical pharmacist.

Dr. John Bitner, MD has practiced medicine in Michigan for almost two decades. He lives and works in Cass City providing full time internal medicine at his office through Hills and Dales hospital.

As leader and owner of Northview Medical House Calls, he brings a wealth of experience and medical competence to our patients and their caregivers.

Tom Plamondon, PA-C has served in the healthcare field for nearly 20 years. He is dually licensed as a Physician Assistant and Physical Therapist. In medicine, he has been trained in geriatrics, orthopedics, internal medicine, and rehabilitative medicine.

His graduate studies in medicine were completed with high honors at Central Michigan University, and he represents his profession as a board member of the Michigan Academy of Physician Assistants.

Our staff is committed to serving you and your caregivers with kindness and respect, by listening attentively and clearly communicating the direction of your care.

Getting Started is Easy. . .

Northview Medical House Calls brings you the simplicity that health care had at an earlier time. . . with all the advances of today's medicine.

It's easy to start enjoying the convenience and benefits that our unique approach to health care provides our patients and their families.

We accept Medicare, Medicaid, private commercial insurance, and cash payment.

Medical House Calls
Can Help You***

989-672-0930

These days, just getting to the doctor can be a challenge. As a result, necessary doctor visits are often neglected.

This is especially true of our aging population as it finds fewer friends and family members available to help with transportation.

Whenever needed health care is not received, it increases the risk of more serious problems down the road. . . and maybe even a hospital stay.

It's for this reason we created Northview Medical House Calls – a team of dedicated and well-trained healthcare professionals called to serve patients at home.

We provide quality, up-to-date medical care for our neighbors in Tuscola, Huron, and Sanilac Counties.

As a family owned and operated medical practice, we use every communication and community resource available to give you the attention you need.

Our goal is to deliver state-of-the-art healthcare with the compassion and personal care of days gone by.

Our Basic Services. . .

We provide all of the essential services you would expect to receive from a physician or physician assistant in a primary care doctor's office.

These include but are not limited to:

- Primary care visits for acute and chronic disease management
- Post-hospitalization and post-skilled nursing facility visits
- Nutritional assessments (with nutritionist)
- Care plan oversight of home health nurses and hospice
- Dementia assessments

Other Services

- Wound care
- Joint injections
- Vaccinations and flu shots
- Blood draws – laboratory services
- Medication management

Diagnostic Testing

- Laboratory testing
- Skin biopsy
- Holter Monitoring and EKG*
- X-rays*

* via associated company

Our Added Benefits. . .

With our approach, you receive more than simply high quality medical care in the comfort, convenience, and privacy of your own home.

Additional benefits include but are not limited to:

- Undistracted, one-on-one attention leading to better care
- Earlier detection due to more thorough evaluation
- Better prescription management because of regular monitoring
- Arrangements made for any needed X-rays. . . in the home
- Assessments for equipment or other care is done with the home setting in mind
- Holistic care, with counsel for nutritional products and spiritual concerns as needed
- No need to travel in bad weather
- Eliminates waiting room time and reduces exposure to other illnesses
