### **Transform Your Body NOW**

Here's your long sought hope to lose weight naturally.

Everything you need for the first 30 days of your personal weight loss campaign is in this five-component kit.

The plan itself is very simple to implement. . . with easy to follow instructions to guide you through the day.

By applying the plan conscientiously, you will reduce your calorie intake, increase your metabolism, and lose weight.

### **Slique Weight Loss Kit**

Here are the five components you'll find in your Slique Weight Loss Kit. . .

#### **Slique Tea**

People sometimes ask, “What can I drink to lose weight?” Slique Tea is what you can drink.

This tea is a delicious, satisfying alternative to sugary beverages. Drink it hot or cold for a boost of energy, extra anti-oxidants, or to satisfy your sweet tooth.

Slique Tea is powered by organic botanicals – jade oolong tea, ocotea leaf, cocoa powder, vanilla essential oil, frankincense powder, and stevia.

As this tea has been developed, patients have averaged 5 pounds of weight loss a week under clinic conditions.

#### **NEW Slique Essence (Essential Oil Blend)**

This one-of-a-kind blend is a “first” in weight management programs. It was formulated specifically to ward off hunger with its fresh, uplifting blend of essential oils.

Add 2-4 drops to your Slique Tea, water, or favorite beverage whenever you're hungry. Or simply inhale to enjoy the same benefits.

The citrol in the citrus essential oils also helps to metabolize fat, and eliminate excess fluids and toxins.

This blend works aromatically to boost your mood and balances emotions – which is a vital component of winning the weight loss battle.

### **Essentialzymes-4 or Detoxzyme**

Enzymes are essential for the proper breakdown of fats, proteins, fiber, and carbohydrates. For efficient digestion and optimum nutrient absorption, you need the multi-complex of enzymes found in Essentialzymes-4.

Making sure you get these enzymes is especially important once you hit your 40s.

With the Slique program, you'll take two capsules with your two largest meals of the day. (Detoxzyme is vegetarian option).

### **Balance Complete or Power Meal**

Replace your least nutritious meal each day with either of these delicious protein shakes. (Power Meal is vegetarian.)

Both of these whole food formulas nourish, sustain, and keep you full longer, making your weight loss goals easier to attain.

### **Ningxia Red**

This whole food supplement supports all the basic mechanisms of your body. Drink just one ounce of Young Living's super-antioxidant juice daily for greater energy and better health,

It tastes great, and is an excellent alternative to popular “energy drinks.”

## **More Benefits for Your Health**

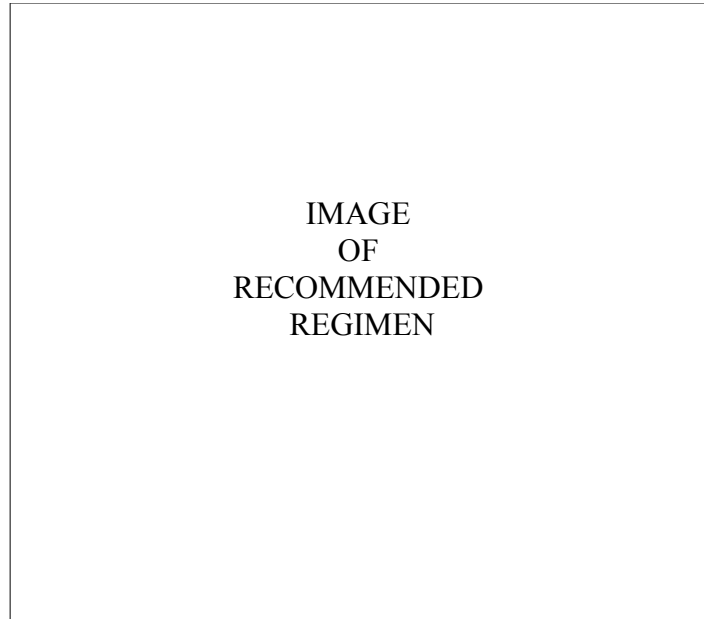

The Slique Weight Loss Kit is just what you need to revive your motivation to lose weight. . .

And you'll find it has some benefits that make it a unique alternative to other weight loss plans. . .

- The Slique program can be used with any eating plan you may choose. (I like the “Eat Right for Your Blood Type” plan.)
- The Slique program uses therapeutic-grade essential oils, which operate at the cellular level, bringing improved functioning to your entire body.
- The Slique program has many positive – not negative – side effects for its users. (For example, its components help to stabilize blood sugar.)
- The Slique program has a vegetarian option available.
- The Slique program really is entirely natural – no artificial sweeteners like aspartame or sucrose as found in other so-called “natural” programs.

- The Slique program is the only weight loss program based on the power of aromatic, therapeutic-grade essential oils.

This approach to natural weight loss can easily complement your lifestyle, and combined with healthy eating and exercise it will optimize your efforts to lose weight naturally.

P.S. Losing weight is one of the best things you can do for your health. As Dr. Barry Sears, author of "The Zone," has observed, "We are dramatically under-estimating the extent of the health care crisis fueled by our obesity epidemic. This is because we are involved in a silent inflammation..."
