

ATTENTION:

Have you noticed those offers for survival seeds in a tube?

**You Can Get All the Survival Seeds
Your Family Needs – for FREE. . .**

And Even Have Extra
to Give or Sell to Others

PLUS these seeds are **GUARANTEED**
to grow where YOU live. . .

So you can have the peace of mind they will
work for you when the time comes.

Dear Friend,

I'm sure you have seen those offers for survival seeds in a tube. You may have even bought a tube or two.

I want to tell you that **there's an alternative way for you to get seeds** – LOTS of seeds – that I think you will find very appealing.

The demand for seeds is definitely going up, as citizens prepare for the very real possibility of food shortages in our own country.

And a lot of people are paying good money to have seeds shipped to them from a far away place.

But what if. . .

- You could get all the seeds you need locally, and for FREE?
- You could get so many seeds *you'll know* you have enough for your family – even if you make some mistakes in planting?
- You could be guaranteed that the seeds you're depending on will grow in your area – with its weather, altitude, and soil conditions?

Well, there's a way that all these possibilities can be true for you.

How does the idea of having over **half a million FREE seeds** sound?

They can be yours. . .

Up to **12 full lbs. of organic seeds per year**, custom tailored and **GUARANTEED** to grow where you live.

But first, I want to be sure you understand why seeds are so important.
